

ISO 9000 Registration

Do You Need ISO 9000? You do if...

- Your customers require or prefer a quality standard
- Your competitors are becoming ISO-registered
- You want access to regulated global markets
- You want to improve quality to impact your business operation and bottom line

What is ISO 9000?

The only internationally accepted framework of quality standards

Benefits of ISO 9000

- Strengthened relationship with your regular customers
- Greater opportunity to work with large and established companies
- Increased competitive advantage
- Reduced scrap and rework defects
- Improved access to international markets
- Continuous improvement in all aspects of your business

TechHelp Can Help You Gain ISO 9000 Registration through...

- Single or multi-company training programs: either one-on-one assistance or ISO 9000 User Group meetings involving a group of companies
- Full implementation of an ISO 9000 plan:
 - On-site Assessments
 - Management Training
 - Procedures / Manual Preparation
 - Internal Audit Training
 - On-site Problem-solving, Training and Support
 - Corrective and Preventative Actions
 - Preparation for Registration / Selection of Registrar

How Can ISO User Group Meetings Benefit You?

- Shared costs
- Shared learning
- Structured approach that will keep your company on track
